

- * Does your 4th or 5th grader love to do Math?
- * Do you think they are 'game' for a challenge?
- * Do you want them to learn problem-solving strategies?

If so, enroll them in *Math Olympiads* at Wayside.

Math Olympiads is a worldwide program that promotes enthusiasm for Math among elementary and middle school students. The participating students learn creative problem solving strategies and also strengthen their mathematical foundation through a series of weekly practices and monthly competitions.

The students will be challenged in an energizing and competitive setting. *Math Olympiads* recognizes the achievement of individual student for his/her perseverance, learning and excellence in Math. Last year, Wayside Elementary School won the High Achievement Award and we plan on winning this award again this year with your son/daughter on the team.

Practices are held on Tuesday mornings from 8:00 a.m. to 9:00 a.m. in Room # 43 from October through March. The first practice is on October 13th at 8:00 a.m. *Math Olympiads* is free but there is an absolute commitment from the students to come to practices and all the contests. Parents are highly encouraged to volunteer to assist in the practices and contests.

Spaces are limited on the Team so please enroll early to avoid disappointment.
